

Consortium Ethics Program Seminar Series

Empathy, Ethics, and the Challenges of Difference

Session 5: Ethical Decision Making with Those Who Have Cognitive Differences: What roles does empathy play?

Tuesday, November 17, 2020 | 11:00 am – 12:00 noon

Valerie Satkoske, PhD

Vice President for Ethics UPMC Mercy and UPMC PUH/SHY
Vice President for Mission Effectiveness, Volunteer Services and Ethics UPMC Mercy

Objectives:

- articulate different ways of being cognitively different and their impact on decisional capacity and the process of healthcare decision making
- appreciate how decision making by neurotypical and neuroatypical patients may differ and the role played by empathy in decision making
- identify challenges faced by neuroatypical individuals, particularly those with autism, when engaging in surrogate decision making
- provide resources to facilitate healthcare decision making by those with cognitive differences

On-line via Zoom—Registration Required
